

## Advanced Training in Anaesthesia (Oxford Specialty Training)

By *Jeremy Prout, Tanya Jones, Daniel Martin*

**Advanced Training in Anaesthesia (Oxford Specialty Training)** By Jeremy Prout, Tanya Jones, Daniel Martin

A curriculum-based guide, *Advanced Training in Anaesthesia* contains everything candidates need in preparation for taking the Final FRCA exam. This book is ideal for both learning and exam revision, but it also provides a ready source of reference for situations in all specialties and sub-specialties, with knowledge which will continue to apply beyond training.

Topics in applied basic science and clinical anaesthesia are presented in a systems-based format, as laid out in the syllabus set by the Royal College of Anaesthetists, allowing for easy navigation and structured learning and revision.

*Advanced Training in Anaesthesia* is authored by both trainees and specialists in order to create an authoritative yet accessible text. Containing everything candidates need to know to pass this final major hurdle in anaesthetic training, this book is ideal for exam revision.

Suggestions for further reading are included for candidates wishing to read around the subjects. Topics in applied basic science are presented in a systems-based format, as laid out in the syllabus set by the Royal College of Anaesthetists, to allow for easy navigation and structured learning and revision.

### Editorial Review

#### Review

There is no such thing as a 'perfect revision book' for exams. However, this 584-page paperback reference manual comes close to it, is aptly titled and does what it says on the tin. In many ways it is essential for those revising for the Final FRCA examination. It covers most of the curriculum laid out by the Royal College of Anaesthetists in a format that is easy to browse and comprehend. *British Journal of Hospital Medicine*

#### About the Author
