Python Programming For Beginners - The Ultimate Crash Course To Learning Basics Of Python In 24 Hours Or Less!

Programming is a labor of love. For many people trying to find a programming language that will do everything that they want it to do is a hard task. Many people are all caught up in fancy user interfaces, long complicated code and fail to understand the basics of the language.

In this book we will explore a very powerful programming language called Python. We will explore the basic functions and give you a foundation to grow and expand on. This book has been written for the beginner programmer in mind. I wrote this book in a way that will give you all the major pieces and parts that you need to be a programmer.

At the end of this book I will give you a challenge to build a specific program. This program will require you to use all the skills taught in this book as well as think outside the box to use new skills and grow your programming skills.

If you are looking for an introductory programming language that will allow you to grow your programming career this is the book for you.
