Statistics: Unlocking the Power of Data 1e Binder Ready Version + WileyPLUS Registration Card By Patti Frazer Lock, Robin H. Lock, Dennis F. Lock, Kari Lock Morgan, Eric F. Lock

This package includes a three-hole punched, loose-leaf edition of ISBN 9781118583104 and a registration code for the WileyPLUS course associated with the text. Before you purchase, check with your instructor or review your course syllabus to ensure that your instructor requires WileyPLUS.

For customer technical support, please visit <http://www.wileyplus.com/support>. WileyPLUS registration cards are only included with new products. Used and rental products may not include WileyPLUS registration cards.

This First Edition of *Statistics* moves the curriculum in innovative ways while still looking relatively familiar. *Statistics* utilizes intuitive methods to introduce the fundamental idea of statistical inference. These intuitive methods are enabled through statistical software and are accessible at very early stages of a course. The text also includes the more traditional methods such as t-tests, chi-square tests, etc., but only after students have developed a strong intuitive understanding of inference through randomization methods. The text is designed for use in a one-semester introductory statistics course. The focus throughout is on data analysis and the primary goal is to enable students to effectively collect data, analyze data, and interpret conclusions drawn from data. The text is driven by real data and real applications. Although the only prerequisite is a minimal working knowledge of algebra, students completing the course should be able to accurately interpret statistical results and to analyze straightforward data sets.
