Christie Aackerlund doesn't need help with anything. So when the world's biggest technology company offers to fly her to a remote location and investigate an alien artifact, all by herself, she's all like "I'll do it!"

But the artifact isn't what it seems, and soon an overly helpful giant living paperclip is getting her all bent out of shape.

Conquered by Clippy is a 4000 word short story featuring sexual situations with digital assistants. It's for super mature audiences only.

The Digital Desires series tells an epic tale, but each story also stands on its own.
