Editorial Review

From the Author

I absolutely loved exploring Castle Girnigoe near Wick, in the far north-east of Scotland. There is so much information available on the Earl of Caithness that I had to set a book here.

Alana Sinclair is a fictional character but her siblings did exist, and her father was complicit in the deaths of three of them. William of Braal Castle did exist, and he did kill an official while at university in Edinburgh, and was released without punishment.

He had to be the villain...

If you get the chance to visit Caithness in October, note that the Northern Lights are absolutely brilliant.

A Lady's Seduction: Highland Menage 3

From the Back Cover

The historical Clan MacDougall is descended from one of the sons of Somerled, 'King of the Isles', killed in 1164. At one time they possessed nine castles and over 250 square miles of land but they did not support the winning monarch and their land and castles were given to their ancient enemy, Clan Campbell.

In the fictional MacDougal clan in the late 16th century there are sixteen brothers under Laird Somerled MacDougal. He took over the clan as a youth because his father was too busy trysting with local women, ignoring his duties as laird.

Somerled insists his brothers, no matter how ragged and hungry, be brave men of honor, keeping their word no matter what, and are loyal to king and country. He's determined to end a 100-year curse by having his brothers marry women with dowries who will accept sharing a pair of brothers. Though they have little, the

sixteen MacDouglals value women and insist they receive pleasure, rare in those times.

Women who eagerly share their bed with two men tend to be strong-minded and want their men even more powerful, though it may take them awhile to admit it...

Each set of brothers is featured in two consecutive books. The first leads them to marriage, love, and a HEA. The second brings trouble followed by a deepening relationship, true enduring love, and a HEA Forever.
