Defender of the Empire: Chaos By Catherine Beery

Three cycles ... Three cycles is both a short length of time and a long one. Longer when the jackals howl and the storm batters against your flimsy shelter ...

The enemies of the Spectral Empire have arrived and traitors have shown themselves. But so, too, has an ancient enemy most have forgotten. Besieged by three distinct attackers, the Spectral Empire finds itself clinging to existence. As tough as two of the enemies are to fight, the third is impossible — the one who you can't see, yet who devours you and any other living being before it. To have a chance against the traitors and Zar'dakens, the Soul Shadows must go. But how does one fight a Shadow?

My name is Rylynn Sinclair and I don't know the answer to that ... at least, not yet.
