

Techniques of Crime Scene Investigation, Eighth Edition (Forensic and Police Science)

By Barry A. J. Fisher, David R. Fisher

Techniques of Crime Scene Investigation, Eighth Edition (Forensic and Police Science) By Barry A. J. Fisher, David R. Fisher

"If you are a Professional Crime Scene Investigator, then this book is a must have for both your personal forensic reference library, as well as your office reference library."

?Edward W. Wallace Jr., Certified Senior Crime Scene Analyst, Retired First Grade Detective, NYPD

"Techniques of Crime Scene Investigation is a well-written, comprehensive guide to the investigative and technical aspects of CSI. The textbook is an educational standard on the theory and practice of crime scene investigation and includes many informative casework examples and photographs. On reading this book, students, entry-level personnel, and experienced practitioners will have a better understanding of the strengths and limitations of forensic science in its application to crime scene investigations."

?Professor Don Johnson, School of Criminal Justice and Criminalistics, California State University, Los Angeles

The application of science and technology plays a critical role in the investigation and adjudication of crimes in our criminal justice system. But before science can be brought to bear on evidence, it must be recognized and collected in an appropriate manner at crime scenes. Written by authors with over 50 years of combined experience in forensic science, **Techniques of Crime Scene Investigation** examines the concepts, field-tested techniques, and procedures of crime scene investigation. Detectives, crime scene technicians, and forensic scientists can rely on this updated version of the "forensics bible" to effectively apply science and technology to the tasks of solving crimes.

What's New in the Eighth Edition:

Practical tips and tricks of the trade in crime scene processing

About the Author

Barry A. J. Fisher served as the crime laboratory director for the Los Angeles County Sheriff's Department, a position he held from 1987 until his retirement in 2009. He is a Distinguished Fellow and past president of the American Academy of Forensic Sciences and was awarded the Academy's highest award, the Gradwohl Medallion. He served as president of the International Association of Forensic Sciences, president of the American Society of Crime Laboratory Directors, and is a past chairman of the American Society of Crime Laboratory Directors?Laboratory Accreditation Board. He has lectured throughout the United States, Canada, England, Australia, Singapore, France, Israel, Japan, China, Turkey, and Portugal on forensic science laboratory practices, quality assurance, and related topics. In 2000, he led a forensic science delegation to lecture to forensic scientists in the People's Republic of China. Since retiring, Fisher has consulted for the United Nations Office on Drugs and Crime, the United States Department of Justice, International Criminal Investigative Training Program (ICITAP), and Analytic Services Inc. **David R. Fisher** currently works as a criminalist supervisor in a large public forensic laboratory in New York City. He has worked on hundreds of homicide, sexual assault, and property crime cases and has testified in court and in the grand jury as a DNA expert on numerous occasions. Fisher is certified by the American Board of Criminalistics and is a Fellow in the American Academy of Forensic Sciences. He also maintains membership in the International Association for Identification, the Northeastern Association of Forensic Scientists and is an associate member in the International Association of Bloodstain Pattern Analysts. Fisher also has much experience in mass fatality incidents. After the events of 9/11, he helped with the identifications of victims from the World Trade Center attack. As an intermittent federal employee with the U.S. Department of Health and Human Services Disaster Mortuary Operational Response Team (DMORT), he was deployed to the Gulf region in 2005 to aid in the identification of victims from Hurricane Katrina.

Users Review
