Energy for Rural and Island Communities Ii: Proceedings of the Second International Conference, Held at Inverness, Scotland, 1-4 September 1981: 2nd From Pergamon

Energy for Rural and Island Communities II is a collection of papers that covers various exploitable energy sources in rural areas. The materials of the book are organized according to the main topic they cover.

The coverage of the text includes various energy sources such as wind, hydro, biofuels, and solar energy. The book also covers concerns in strategies and planning of energy management in various rural areas, along with the factors that needed to be considered, such as cost, implementation, distribution, and maintenance.

The text will be of great use to individuals involved in projects that aim to develop and modernize rural areas.
